

Anil Kumar Vadathya

anil.rgukt@gmail.com ❖ (832) 660-7520 ❖ Houston, TX ❖ [webpage](#)

I am a research engineer with >5 yrs experience in machine learning interested in solving challenging problems in healthcare to create a measurable impact.

WORK EXPERIENCE

Rice University

Nov. 2018 – Present

Research Engineer, [Digital Health Initiative](#), ECE

Houston, TX

Visiting Engineer, CNRC, Baylor College of Medicine

- As a lead engineer, I led machine learning and computer vision efforts in developing technology, [FLASH-TV](#), for objectively measuring screentime (TV, mobile use)
 - Collaborated across a diverse team of pediatricians, behavioral researchers and engineers
 - FLASH-TV can track children's TV viewing with **>85% accuracy** in real-time
- Built a gaze tracking tool using state-of-the-art **face detection, recognition and gaze estimation** methods.
 - Developed training techniques to bridge the gap between public datasets and FLASH requirements
 - Runs **real-time** on edge devices, deleting images after analysis, **preserving privacy**
- Developed validation, data collection protocols under IRB and HIPPA guidelines, managed large scale HD video labeling database, and an inventory of state-of-the-art Nvidia edge devices (100k USD)
- FLASH-TV efforts (2018-2021) led to an ongoing [NIH PO1 grant](#) (2022-2027)

EDUCATION

Indian Institute of Technology (IIT) Madras

June 2018

MS in Electrical Engineering

Chennai, India

- Masters thesis on “generative models for image restoration” won Qualcomm Innovation Fellowship-India

Rajiv Gandhi University of Knowledge Technologies

May 2015

B. Tech in Electronics and Communications Engineering

Basar, India

PROFESSIONAL ACTIVITIES

- Reviewer for journals - IEEE TPAMI, IEEE TCI, Optics Express, IJCV
- Reviewer for conferences - CVPR, ECCV, WACV, ICIP, ICHI, Face and Gesture

SKILLS

Machine learning, computer vision, deep neural networks, image analysis, scikit-learn, numpy; Training, optimizing neural networks; Python, PyTorch, Tensorflow, MXNet, C, BASH, Matlab; GitHub, Docker, Linux;
