Anil Kumar Vadathya

anil.rgukt@gmail.com ❖ (832) 660-7520 ❖ Houston, TX ❖ [Webpage](#)

Research engineer with >5yrs of experience in machine learning, AI, and data analytics. I love building state-of-the-art AI products for challenging problems. Looking for roles where I can create a lasting impact.

WORK EXPERIENCE

Rice University   **Nov. 2018 – Present**
Research Engineer, [Digital Health Initiative](#), ECE   *Houston, TX*
Visting Engineer, [Dr. Teresia lab](#) at CNRC, BCM

- Led machine learning efforts to train, test, and deploy models for [FLASH-TV](#), a screentime tracking tool
  - FLASH-TV objectively measures TV viewing behavior of children with **>85% accuracy**
  - Equips pediatricians, an automated tool to study the screentime effects on children's health
  - Collaborated across a diverse team of pediatricians and behavioral researchers
- Built a gaze tracking tool using state-of-the-art **face detection, recognition and gaze estimation** methods.
  - Runs **real-time** on edge devices, deleting images after analysis, ensuring **user privacy**
- FLASH-TV is deployed in participant's home for an ongoing [NIH PO1 grant](#) (2022-2027)
  - Deploy, troubleshoot, and maintain an [up-to-date software](#) for >50 Nvidia edge devices, **<4% failure rate**
- Developed secure data collection protocols under IRB and HIPPA guidelines, managed large scale databases, and an inventory of state-of-the-art edge devices (100k USD)

EDUCATION

Indian Institute of Technology (IIT) Madras   **June 2018**
MS in Electrical Engineering   *Chennai, India*

- Thesis on "AI generative models for image restoration" won **Qualcomm Innovation Fellowship**

Rajiv Gandhi University of Knowledge Technologies   **May 2015**
B. Tech in Electronics and Communications Engineering   *Basar, India*

PROFESSIONAL ACTIVITIES

- Reviewer for journals: IEEE TPAMI, IEEE TCI, Optics Express, IJCV
- Regular reviewer for top computer vision conferences - CVPR, ECCV, WACV, ICIP, ICHI, Face and Gesture

SKILLS

Machine learning, computer vision, deep learning, image and data analysis, scikit-learn, numpy; Training, optimizing neural networks; Python, PyTorch, Tensorflow, MXNet, C, BASH, Matlab; GitHub, Docker, Linux.
